## NO HOPE RESCUING 114 BURIED MINERS ALIVE

### THE TERRIFIC EXPLOSION CAUSED CAVEIN

MINE SUPPORTS TORN DOWN  
AND EARTH FALLS ON  
TRAPPED MEN

40 CRUSHED AND BURNED  
BODIES BROUGHT TO THE  
SURFACE

(By United Press)  
Benwood, W. Va., April 29.—No hope was held out today for rescue alive of the 114 miners entombed in the Benwood mill mine of the Wheeling Steel corporation 24 hours ago by a terrific gas explosion that tore down mine supports letting loose tons of earth on the trapped men.

Officials of the mine admitted that it would be a miracle should any miners be rescued alive.

Forty crushed and burned bodies had been brought to the surface today from the workings.

**Army of Rescue Workers**  
A small army of expert rescue workers recruited from the bureau of mine cars and mines in the vicinity of Benwood, were still groping their way through the caverns of the earth today, searching for the men unaccounted for.

While the rescue squads worked untiringly, the entire population of Benwood, men, women and children huddled on a muddy hillside outside the Benwood mine gate, hoping against hope as the hours passed by that their loved ones might have escaped death.

Forty bodies had been removed from the mine at 9:30 this morning, Isaac M. Scott, president of the Wheeling Steel corporation said in a statement, adding that 114 men had entered the mine on Monday morning.

This was the first time the exact number of men caught in the disaster was made known.

"The explosion unquestionably came from gas," Scott said. We have no idea how the gas developed which caused the explosion."

Crossed arm in arm, the bodies of Rocco and Michael Capabinaco were found near the Brown's Run air shaft today.

The two boys had escaped the roof falling and fire that followed the blast, only to be overcome by the fire damp within a few hundred yards of fresh air.

### LATEST REPORT, 2 P. M. ON BODIES RECOVERED

Fourteen additional bodies were brought to the foot of the main entrance slope of the mine by rescue squads at 10 a. m. Forty bodies have already been taken out, and the additional 14 now on their way out will make the total of 54 recovered.

### DEMOCRATIC LEADERS SEEK CANDIDATES

(By United Press)  
St. Paul, April 29.—Democratic leaders are casting about trying to find some candidates for United States senator, governor and other offices.

Judge J. F. D. Meighan of Albert Lea refused to file as a candidate for senator. John J. Farrell so far has declined to enter the race for governor.

Joseph Wolf, Staples, chairman of the democratic state central committee, has been conferring with leaders for several days trying to line up a state ticket.

### JEWELERS PROBLEMS ARE DISCUSSED

(By United Press)  
Minneapolis, April 29.—The annual convention of the Minnesota Retail Jewelers' association opened at the West Hotel here today.

Jewelers' problems are to be discussed. The convention ends tomorrow night.

## County Assessors Met at Court House Monday

### SENATOR COUZENS OPERATED ON TODAY FOR GALLSTONES

(By United Press)  
Baltimore, April 29.—United States Senator James Couzens of Michigan was taken to the operating room for an operation for relief from gallstones at Johns Hopkins hospital at 11 o'clock today.

Dr. J. M. T. Finney was in charge of the operation.

### LIGHT VOTE FORECAST IN OHIO PRIMARY

CONTEST BETWEEN COX AND  
MCADOO ON DEMOCRATIC  
BALLOT

JOHNSON SUPPORTERS BITTERLY  
FOUGHT DAUGHERTY  
FOR DELEGATE

(By United Press)  
Columbus, Ohio, April 29.—A light vote was forecast in Ohio's primary today when voters go to the polls to indicate their preference of republican and democratic nominees for president.

Interest in the primaries centered on the contest between former Governor James M. Cox and former Secretary of the Treasury William G. McAdoo on the democratic ballot with Cox a native son having the edge.

President Coolidge was picked to win over his opponent Hiram Johnson, California senator, by a handsome majority in all principal counties of the state where contests have been waged.

Aside from the presidential candidates there was interest in the fight of Harry M. Daugherty, ousted attorney general as a Coolidge delegate. Daugherty was bitterly fought all during the campaign by Johnson supporters led by State Senator George Bender.

The democratic leaders supporting Governor Cox sought to bring out a large vote that will serve as a notice to the country that Cox candidacy will be presented to the New York convention with all the vigor that brought him the nomination four years ago at San Francisco. They want a smashing victory and not merely a perfunctory endorsement.

The republican delegation to the Cleveland convention will number 51 and the democratic delegation to New York 52.

### STATE BANK ROBBED OF ABOUT \$3,000

Irving, Neb., April 29.—Four bandits today held up the Irving State bank and escaped with between \$2,000 and \$3,000.

### PROBING MILFORD MINE DISASTER

WITNESSES DESCRIBE THE MINE  
INTERIOR, WORKINGS,  
ETC.

(By United Press)  
Crosby, April 29.—The governor's commission probing the Milford mine disaster which cost 41 lives early in February, continued its hearings today.

Witnesses have described the interior of the mine, its workings and safety precaution. Some of the workers who escaped from the mine when the bottom of a small lake gave way and flooded the mine, were called.

Yesterday some of the investigators went into the mine to the 135 foot level to make personal observations. They will hold two day sessions here each week until the probe is completed when they will report to the governor.

### CLAIMS WILSON FAILED TO PROTECT NAVAL OIL RESERVE

CHARGE MADE AGAINST ADMINISTRATION BY GEOLOGIST  
CUTLER

FAILED TO DRILL PROPER OFFSET  
WELLS IN CALIFORNIA

### Congress Today

Senate: Considers tax bill.  
Teapot Dome investigation resumes.

Daugherty investigation resumes.

Governor Pinchot appears on Muscle Shoals before agricultural committee.

Conference on immigration bill continues.

Conference on soldier bonus continues.

House: Considers McNary-Haugen farm relief bill.

Washington, April 29.—The Wilson administration failed to protect fully the California naval oil reserves, Willard W. Cutler, geologist, charged before the senate oil committee today.

Before the republican administration came into office March 4, 1921, the government lost \$3,200,000 worth of oil by failing to drill the proper offset wells in the California reserves, Cutler declared.

Adjoining Standard oil wells drained out government oil from the reserves, he contended.

### SALOONKEEPER NEVER SERVED DAY IN JAIL

Washington, April 29.—President Coolidge pardoned a Chicago saloonkeeper charged with violating the Volstead act after the late President Harding had twice denied clemency in the case, James A. Finch, pardon attorney in the department of justice today told the senate Daugherty investigating committee.

Judge Keneas Mountain Landis now czar of organized baseball, who sentenced Philip Grossman, the saloonkeeper to a year in jail, was immediately subpoenaed by the committee. Although Grossman lost his appeal to the higher court, Finch said the saloonkeeper never served a day in jail.

### EXCUSED WITHOUT BEING QUESTIONED

Washington, April 29.—Mrs. Jake Hamon, widow of the late Oklahoma oil magnate who was reported to have attempted to swing a deal at the last republican national convention whereby he was to have become secretary of the interior, was excused without questioning by the senate oil committee today.

A bitter row developed between republican and democratic members of the committee as to who was responsible for subpoenaing her which ended with both sides disclaiming responsibility and consequently she was excused.

Mrs. Hamon was dressed in a light brown suit. She wore a black hat with black lace streamers down each side.

When Mrs. Hamon took the stand, Senator Spencer, Missouri, republican, entered his protest against questioning her unless the questions related to the leasing of the naval oil reserves.

### ST. PAUL CONTRACTOR HOLDS LARGE CLAIM

St. Paul, April 29.—District Judge R. D. O'Brien late yesterday named J. A. O. Burnquist, former Minnesota governor, receiver for the Northwestern Medical and Surgical association its hospital and other property at Brainerd.

Charles Skoogian, St. Paul contractor who holds a claim against the association for \$19,891, filed application for a receiver. Judge O'Brien fixed bond for the receiver at \$10,000.

### CURTAIN FALLS ON GOV. W. T. McCRAY; GUILTY MAIL FRAUD

Indianapolis, April 29.—Emmet F. Branch of Martinsville, lieutenant governor of Indiana, will become governor of the state within 48 hours and Governor Warren T. McCray, convicted by a jury in federal court late yesterday of using the mails in a gigantic scheme to defraud, will resign, it was made known today.

McCray will not appeal his case but will serve the sentence to be imposed upon him by Judge Anderson Wednesday morning, it was stated. Plans are to take him to the federal prison at Atlanta, Ga., on Thursday, by United States Marshal L. P. Meredith.

With these events, the curtain will fall upon the final act in the turbulent administration of Governor McCray.

Chances of the appeal being taken in federal court were regarded as slight.

Governor McCray is expected to abide by his statement to republican leaders last fall that he would resign in the event he was convicted without standing upon his right to appeal.

### McCRAY OFFERS RESIGNATION

Indianapolis, April 29.—Borne down by the stigma of his conviction in federal court, Warren T. McCray today relinquished the reins of the government of the state of Indiana.

After brief visits to the state house under guard, McCray formally signed his resignation.

The resignation is to take effect at 10 o'clock Wednesday morning at which time he will appear before Judge Anderson in federal court to be sentenced for fraudulent use of the mails.

The resignation was written in pencil and was directed to "The Honorable Ed Jackson, secretary of state." It read:

"I hereby resign the office of governor of the state of Indiana to take effect at 10 a. m. Wednesday, April 30. Warren T. McCray.

Rochester, April 29.—C. A. Lindbergh, Little Falls, suffering from a brain tumor which surgeons say will eventually prove fatal, showed little change today. He has been in a semi-conscious condition for five days, taking food and resting, but unable to talk or recognize those about him.

### ALONE IN THE WORLD AND HER ROMANCE FADED

DULUTH GIRL'S MOTHER KILLED  
BY ENRAGED  
SUITOR

LATTER WOUNDED GIRL AND  
THEN KILLED  
HIMSELF

Duluth, April 29.—Alone in the world and with only a fighting chance against death, Cecelia Czelusta has barely outlived her romance.

Walter Kucaz, her sweetheart, and Mrs. Sam Czelusta, her mother, are dead.

Cecelia blamed her mother's caustic Polish temperament for the wreck of her romance.

When Walter came to the house yesterday afternoon, the girl's mother demanded that he leave—give up Cecelia and never see her again.

Enraged, Walter drew a gun and instantly killed Mrs. Czelusta. He shot and wounded Cecelia and then turned the gun on himself. He died a few hours later.

On her cot in the hospital, Cecelia was asked by police for a dying statement.

"I am not going to die," she said. "I won't say anything."

And her determination to live may win.

### MOONSHINE IS BLAMED FOR DEATH OF GIRL

3 MEN WHO PLIED CLOQUET GIRL  
WITH LIQUOR HELD INDIRECTLY  
RESPONSIBLE

GIRL'S PARENTS, BROTHER AND  
7 SISTERS TOOK CHARGE OF  
HER BURIAL TODAY

(By United Press)  
Cloquet, Minn., April 29.—Seven sisters of Jennie Laundry, pretty Cloquet teacher, learned today that moonshine caused her death.

Three men who induced her to ride with them and who plied her with liquor were held indirectly responsible. They let her out of the car half nude at the Sawyer railroad crossing early Saturday morning. A few minutes later a train came through and ground her to pieces. Another woman barely escaped a similar fate by leaving the party earlier.

The men accused by the coroner's jury are George Grace, Ernest Tantz and John Youngbauer, all of Cloquet. Alton Sorenson and Rolland Ladue, also members of the automobile moonshine party, were held blameless.

Grace was arrested on a charge of transporting liquor, and is held in the Carlton jail.

Coroner Franklin W. Raiter is trying to find some means of fixing the blame on the other men to make them pay for her death.

The girl's parents, her brother and seven sisters took charge of her burial today.

### 30 SHIPS BATTLE ICE FLOES TODAY

WERE HELD UP BY FOG IN THE  
DULUTH HARBOR YES-  
TERDAY

(By United Press)  
Duluth, April 29.—With a northeaster coming up, thirty ships were still battling ice floes in the harbor here today.

Held up by fog late yesterday, the ships were unable to make any progress against the ice jam which has held some of them out of the harbor for five days. Eight abreast, big colliers plowed into the ice floes trying to make the ship canal. They dared not try speed for fear of smashing their propeller blades. Other ships came in behind them.

Should the wind drive the ice back into the harbor, the ships may be held up for some time.

Allen Hopper, Former  
St. Paul Poor Farm  
Chauffeur, Arraigned

(By United Press)  
St. Paul, April 29.—Allen Hopper, former chauffeur at the poor farm who is charged with stealing an automobile from the farm, waived examination in police court this morning.

He will be arraigned in district court on a charge of driving away an automobile without owner's permission, later.

The car disappeared from the garage at the farm Saturday night, and Hopper was arrested in Brainerd on Sunday. He had been discharged as a chauffeur at the farm a week ago.

### KNUTSON TRIAL IS SET FOR TOMORROW

(By United Press)  
Arlington, Va., April 29.—Representative Harold Knutson of Minnesota and Leroy M. Hull, labor department clerk, are scheduled to go on trial in circuit court here tomorrow on a statutory charge. They are at present at liberty on \$3,000 bail each.

### FIRST BUDGET OF LABOR GOVERNMENT IN ENGLISH COMMONS

(By United Press)  
London, April 29.—Philip Snowden introduced in the house of commons today the first budget of the labor government.

A crowded house listened attentively while the new chancellor of the exchequer outlined the fiscal program of the MacDonald government.

### GOV. AL SMITH TO BE A FREE LANCE CANDIDATE

AS DISTINGUISHED FROM A BOSS  
PICKED CANDI-  
DATE

WILL SO APPEAR FOR THE  
DEMOCRATIC PRESIDENTIAL  
NOMINATION

(By United Press)  
New York, April 29.—Governor Al Smith apparently is to go before the democratic national convention here under the banner of a free lance, rather than a boss picked candidate for the presidential nomination.

This is about all that can be drawn this far from the highly secret sessions held during the last 24 hours behind barred doors by state and national democratic leaders here, discussing Smith's pre-convention campaign.

It was not particularly surprising, therefore, when George Brennan, squire of Illinois democracy, solemnly announced after Monday's conferences that he was returning to Chicago free from any pledge on behalf of the Illinois delegation to Smith or any other candidate. This was followed by further announcement by Smith that he had called off his prospective visit to Thomas Taggart, Indiana democratic chieftain.

It will be recalled that Brennan, Taggart and Murphy have been rumored for weeks as agreed in advance on the matter of putting over Smith as the party standard bearer in June. It even had been suggested that Brennan, following the death of Charles F. Murphy would be named manager for the Smith campaign.

### LITTLE FALLS HAS B. & P. W. DINNERS

(By United Press)  
Little Falls, April 29.—A dinner is to be held here today by the Business and Professional Women's club of Little Falls.

Several new members are to be taken into the organization.

### BOOTLEGGERS' ALCOHOL TAKEN

3 STARTLING ARRESTS MAY  
SOLVE MYSTERIOUS DIS-  
APPEARANCE

(By United Press)  
Minneapolis, April 29.—Three startling arrests were expected late today on the mysterious disappearance of 170 barrels of confiscated alcohol from the Gedney warehouse. The alcohol had been seized from bootleggers.

After a lot of ghost stories involving agents of the prohibition department, federal agents today announced warrants had been issued for Harry and Fred Gedney, owners of the warehouse, and for Francis Barbeau.

The alcohol had been taken out of the barrels, placed in new barrels and the old ones filled with water.

R. P. Murphy, warehouse superintendent and R. P. Hunt, warehouse foreman have already been arrested. They are alleged to have assisted in hauling the alcohol away from the warehouse.

### THEY RECEIVED INSTRUCTION FROM TAX COMMISSION

ASSESSMENT LAWS OF STATE  
ARE FULLY EX-  
PLAINED

REASONS WHY LAWS SHOULD BE  
CAREFULLY EN-  
FORCED

The assessors of the county met at the court house yesterday for the purpose of obtaining their assessment books and other necessary supplies and to receive instructions from the tax commission in regard to their duties under the laws of the state.

They were addressed by Samuel Lord of the Tax Commission who explained very fully the assessment laws of the state and the reasons why these laws should be fully and carefully enforced. He explained that under the laws as they stand, iron ore should be assessed at 50 per cent of its true and full value;

That farm lands and other rural lands should be assessed at 33 1-3 per cent of full value, and platted city and village real estate at 40 per cent of full value;

That household goods, wearing apparel, furniture, musical instruments, sewing machines and everything used in the home to equip or beautify should be assessed at 25 per cent of full and true value;

That merchandise, livestock, tools and machinery of all kinds, except farm tools and machinery; manufacturers' materials and manufactured products, and articles of every kind used in any business or profession should be assessed at 33 1-3 per cent of full and true value;

That agricultural products in the hands of producers and not held for sale, and all agricultural tools, implements and machinery used by the owner in carrying on his farm, at 10 per cent of full value;

And bank stock, street railways, the poles and wires of electric light and power companies, and the equipment of all public service corporations, at 40 per cent of full value.

He said that money on hand or on deposit in a bank or elsewhere; book accounts, promissory notes not secured by real estate mortgages which are recorded in this state; and stock in corporations where the property of the corporation is not taxed in this state, are all subject to assessment at their true and full value and taxed at the low flat rate of 3 mills on the dollar, the lowest tax applied to any class of property in the state except the tax imposed on mortgages.

Money and credits, the speaker said, were, as a general rule, the property of prosperous and well-to-do people and of course like other taxable property should all be assessed and taxed, but that in spite of the very small tax imposed upon such property, more than fifty per cent of it is concealed from the assessors and entirely escapes taxation.

"Many people," Mr. Lord declared, "who like to be regarded as honorable and upright citizens do not hesitate to commit wilful perjury in listing such property, or in concealing it from the assessors and are a type of criminal more dangerous to good government than pickpockets or bootleggers. Assessors should use all honorable means to secure a full listing of such property."

He said that the only way the burden of taxation can be equitably distributed among the taxpayers of any community is by a full listing of all property subject to taxation and its assessment in accordance with the laws of the state. That extensive investigations by the Tax Commission of this state and of other states, prove conclusively that any deviations from the statutory rule nearly always result in rank injustice, and this injustice, the speaker

### KNUTSON TRIAL IS SET FOR TOMORROW

(By United Press)  
Arlington, Va., April 29.—Representative Harold Knutson of Minnesota and Leroy M. Hull, labor department clerk, are scheduled to go on trial in circuit court here tomorrow on a statutory charge. They are at present at liberty on \$3,000 bail each.

### FIRST BUDGET OF LABOR GOVERNMENT IN ENGLISH COMMONS

(By United Press)  
London, April 29.—Philip Snowden introduced in the house of commons today the first budget of the labor government.

A crowded house listened attentively while the new chancellor of the exchequer outlined the fiscal program of the MacDonald government.

### GOV. AL SMITH TO BE A FREE LANCE CANDIDATE

**AS DISTINGUISHED FROM A BOSS  
PICKED CANDI-  
DATE**

**WILL SO APPEAR FOR THE  
DEMOCRATIC PRESIDENTIAL  
NOMINATION**

(By United Press)  
New York, April 29.—Governor Al Smith apparently is to go before the democratic national convention here under the banner of a free lance, rather than a boss picked candidate for the presidential nomination.

This is about all that can be drawn this far from the highly secret sessions held during the last 24 hours behind barred doors by state and national democratic leaders here, discussing Smith's pre-convention campaign.

It was not particularly surprising, therefore, when George Brennan, sachem of Illinois democracy, solemnly announced after Monday's conference that he was returning to Chicago free from any pledge on behalf of the Illinois delegation to Smith or any other candidate. This was followed by further announcement by Smith that he had called off his prospective visit to Thomas Taggart, Indiana democratic chieftain.

It will be recalled that Brennan, Taggart and Murphy have been rumored for weeks as agreed in advance on the matter of putting over Smith as the party standard bearer in June. It even had been suggested that Brennan, following the death of Charles F. Murphy would be named manager for the Smith campaign.

### LITTLE FALLS HAS B. & P. W. DINNEN

(By United Press)  
Little Falls, April 29.—A dinner is to be held here today by the Business and Professional Women's club of Little Falls.

Several new members are to be taken into the organization.

### BOOTLEGGERS' ALCOHOL TAKEN

**3 STARTLING ARRESTS MAY  
SOLVE MYSTERIOUS DIS-  
APPEARANCE**

(By United Press)  
Minneapolis, April 29.—Three startling arrests were expected late today on the mysterious disappearance of 170 barrels of confiscated alcohol from the Gedney warehouse. The alcohol had been seized from bootleggers.

After a lot of ghost stories involving agents of the prohibition department, federal agents today announced warrants had been issued for Harry and Fred Gedney, owners of the warehouse, and for Francis Barbeau.

The alcohol had been taken out of the barrels, placed in new barrels and the old ones filled with water.

R. P. Murphy, warehouse superintendent and R. P. Hunt, warehouse foreman have already been arrested. They are alleged to have assisted in hauling the alcohol away from the warehouse.

### THEY RECEIVED INSTRUCTION FROM TAX COMMISSION

**ASSESSMENT LAWS OF STATE  
ARE FULLY EX-  
PLAINED**

**REASONS WHY LAWS SHOULD BE  
CAREFULLY EN-  
FORCED**

The assessors of the county met at the court house yesterday for the purpose of obtaining their assessment books and other necessary supplies and to receive instructions from the tax commission in regard to their duties under the laws of the state.

They were addressed by Samuel Lord of the Tax Commission who explained very fully the assessment laws of the state and the reasons why these laws should be fully and carefully enforced. He explained that under the laws as they stand, iron ore should be assessed at 50 per cent of its true and full value;

That farm lands and other rural lands should be assessed at 33 1-3 per cent of full value, and platted city and village real estate at 40 per cent of full value;

That household goods, wearing apparel, furniture, musical instruments, sewing machines and everything used in the home to equip or beautify should be assessed at 25 per cent of full and true value;

That merchandise, livestock, tools and machinery of all kinds, except farm tools and machinery; manufacturers' materials and manufactured products, and articles of every kind used in any business or profession should be assessed at 33 1-3 per cent of full and true value;

That agricultural products in the hands of producers and not held for sale, and all agricultural tools, implements and machinery used by the owner in carrying on his farm, at 10 per cent of full value;

And bank stock, street railways, the poles and wires of electric light and power companies, and the equipment of all public service corporations, at 40 per cent of full value.

He said that money on hand or on deposit in a bank or elsewhere; book accounts, promissory notes not secured by real estate mortgages which are recorded in this state; and stock in corporations where the property of the corporation is not taxed in this state, are all subject to assessment at their true and full value and taxed at the low flat rate of 3 mills on the dollar, the lowest tax applied to any class of property in the state except the tax imposed on mortgages.

Money and credits, the speaker said, were, as a general rule, the property of prosperous and well-to-do people and of course like other taxable property should all be assessed and taxed, but that in spite of the very small tax imposed upon such property, more than fifty per cent of it is concealed from the assessors and entirely escapes taxation.

"Many people," Mr. Lord declared, "who like to be regarded as honorable and upright citizens do not hesitate to commit wilful perjury in listing such property, or in concealing it from the assessors and are a type of criminal more dangerous to good government than pickpockets or bootleggers. Assessors should use all honorable means to secure a full listing of such property."

He said that the only way the burden of taxation can be equitably distributed among the taxpayers of any community is by a full listing of all property subject to taxation and its assessment in accordance with the laws of the state. That extensive investigations by the Tax Commission of this state and of other states, prove conclusively that any deviations from the statutory rule nearly always result in rank injustice, and this injustice, the speaker

## THEY ARE REAL TESTS

In a copyrighted article under his "Spotlight" head, Grantland Rice calls attention to the merit badge of the Boy Scouts and that real tests are devised and which must be mastered before the coveted decoration can be secured.

That grand old Scout, Daniel Beard, makes the statement that not two grown men in 10 can pass the tests demanded by the Boy Scouts in their award of merit badges, says Mr. Rice. After perusing the various tests with considerable care we doubt that one man in 10 can earn a merit badge.

The tests not only call for knowledge upon some one of 60 subject matters, but also accomplishment. It is not only what you know, but what you can do. And you must both know and do.

The present generation between 30 and 70 is not going to be of any great help in world advancement. If there is any, forward movement coming some year later on the 700,000 Boy Scouts will be no small part of the uplift. Here is an organization that deserves all the support you can give it, in any way at any time. It is a chance for the average grown-up to help for all the things he hasn't done—or has done that he shouldn't have.

It is encouraging to see a great sports writer like Rice also take up the boosting of Boy Scouts. The good things of the Boy Scouts are permeating all avenues.

## PARCEL POST INCREASE

THE Minnesota Farm Bureau does not relish a 300 per cent increase in parcel post rates. The higher schedule is proposed in the Paige-Kelley-Edge bills, designed to raise revenue with which to meet a \$150,000,000 wage boost for postal employees.

J. F. Reed, president of the Minnesota Farm Bureau, made this very definite statement: "The Farm Bureau is not opposed to higher wages for postal employees, but we do object to throwing all of the burden on the farmers, already deflated until their economic condition is unbearable. Parcel post accounts for but a small per cent of the postoffice department's receipts. If increased rates are necessary, we believe that all users of the service should foot the bill. It is rank injustice to ask farmers, who pay almost all the parcel post charges, to stand this burden alone. Moreover, there is now at work a commission that is making a scientific study of the postal situation, especially the problem of fair rates. When this report is ready the postoffice department itself will be able to adjust rates."

## SAVING THE BEAUTY SPOTS

THE Lakefield Standard says that the removal and destruction of half a million unsightly advertising signs and bill boards along public highways has just been completed by employees of the State Highway Department as part of Minnesota's contribution to the nation-wide campaign to save beauty spots.

Uprooting the signs and bill boards, we believe, has uncovered the beauty spots which hitherto had been obscured. We don't like to brag about our own business, but the sign and bill board apportionment formerly made by merchants, can now be spent to as good, if not better advantage, by newspaper advertising. People take the time to read newspapers, but not every driver has the time or inclination to read all the bill boards.

## DAYLIGHT SAVING IN THE EAST

MANY people thought of the daylight savings plan as something associated with the war to save time and money. In this state it did not please the farmers whose farmwork is regulated by the sun regardless of any self-imposed rules.

But in the east, daylight saving has found many supporters and New York and Chicago have again adopted the plan, pushing their clocks forward an hour Saturday midnight. Railroads will continue to operate on standard time out of the cities. It is confusing to a stranger, however, to leave a Chicago railway station at 8 o'clock in the morning, and to find a clock in a cigar store across the street pointing to 9 o'clock.

## GUARANTEE OF BANK DEPOSITS

TOM DAVIS, farmer-labor candidate for governor, is advocating the protection of depositors of banks. A law guaranteeing bank depositors against loss has been up in every session of the legislature since 1915 but has failed of passage.

Mr. Davis argues that the state owes an obligation to the people to protect them against loss of their savings deposited in banks. He favors more rigid control of banking by the state and full protection to depositors against loss. He contends that such a law will benefit small banks especially.

## BIG ADVERTISING CONTRACT

ADVERTISING in a haphazard way is better than no advertising at all, but a regular appropriation for advertising, with prepared copy changed frequently produces the best results. Witness the example of Fred W. Kruse, a merchant of Mankato.

He has just closed a contract with the Mankato News for 20,000 inches of advertising to be used within one year at a cost of \$10,000. Mr. Kruse was a clerk a few years ago, and has made a success of merchandising through his consistent advertising, coupled with store service.

## RADIO ON THE FARM

THE Minnesota Farm Bureau has asked all farmers to report to its state office on the extent to which radio is playing a part in farm life. It wants to hear, especially, from those who have sets. The survey is being made as a basis for establishment of a program in the Northwest.

(By United Press)  
Paris, April 29.—France is jubilant over the brilliant flying stunt of Lieutenant Pelletier D'Oisy who already has outflown both the British and American round the world fliers having left Paris only last Thursday.

After fighting terrible storms in the Persian gulf and experiencing untold difficulties in piloting his big plane over the Mesopotamian deserts, the gallant French airman has arrived at Benderabbas on the Persian gulf.

Ignoring fatigue, he flew on today toward Karachi, his next stopping place on the way to Japan.

## INTEREST IN ALFALFA GROWING IN STATE

(By United Press)  
Fargo, N. D., April 29.—An enormous interest in alfalfa growing with a possible doubling of the state's acreage of last year, is reported by H. L. Walster, agronomist at the North Dakota Agricultural college. Even with doubled acreage, however, he believes, there is no danger of overproduction as it will be some time before the supply of alfalfa hay and seed can equal the increasing demand.

"Alfalfa hay made up only nine per cent of the total tame hay crop," Mr. Walster declares, "Clover hay, including both Red and Sweet makes up only 15 per cent of the tame hay crop. This past year North Dakota harvested 1,618,000 tons of tame hay and 2,395,000 tons of wild hay."

## ORDER LIMITING TIME TO FILE CLAIMS

State of Minnesota, County of Crow Wing, In District Court, 15th Judicial District.  
Seafeld Exploration Company, a corporation, Plaintiff.

Barrows Mining Company, a corporation, Defendant.  
It appearing to the court, from the petition of Mal Clark made herein, that he is the duly appointed, qualified and acting receiver of the affairs of the defendant above named, undet and pursuant to the provisions of Section 6543 of the General Statutes of Minnesota for 1913, and that there are claims unpaid and outstanding against said defendant, and that it is proper and necessary that an order limiting the time within which creditors may file their claims herein be made and notice thereof given.

NOW, THEREFORE, It is Ordered, that the creditors of said defendant corporation, Barrows Mining Company, be and they hereby are, required to present and exhibit their respective claims against said defendant corporation by filing in the office of the clerk of this court on or before October 25, 1924, a verified complaint setting forth their respective claims against said defendant, and by delivering, before said day, a copy thereof, to Mal Clark, receiver herein, at his office in The First National Bank Building, in the City of Brainerd, in said county, and in default thereof such creditors shall be precluded from receiving any of the benefits of this action, and from sharing in any part of the funds collected in this action and to be distributed under the judgment of this court.

It is Further Ordered, that any party interested in this action may interpose objection to any complaint filed herein, by filing in said clerk's office a verified answer thereto, setting forth such objection and serving a copy thereof upon the claimant whose claim is objected to, at any time within said period, and all claims to which objection is not made within said time shall stand admitted and allowed without proof, and that the trial of any issue of law or facts raised by any such complaint and objection, shall be brought on for trial and hearing by service of notice of trial upon the claimant, objecting party and receiver, in the same manner as in a civil action. It is Further Ordered, that notice hereof be given by publication of this order and notice in The Brainerd Daily Dispatch, a legal newspaper, published at Brainerd, in said county, once in each week for three successive weeks.

Dated April 21st, 1924.

## THEY ARE REAL TESTS

In a copyrighted article under his "Spotlight" head, Grantland Rice calls attention to the merit badge of the Boy Scouts and that real tests are devised and which must be mastered before the coveted decoration can be secured.

That grand old Scout, Daniel Beard, makes the statement that not two grown men in 10 can pass the tests demanded by the Boy Scouts in their award of merit badges, says Mr. Rice. After perusing the various tests with considerable care we doubt that one man in 10 can earn a merit badge.

The tests not only call for knowledge upon some one of 60 subject matters, but also accomplishment. It is not only what you know, but what you can do. And you must both know and do.

The present generation between 30 and 70 is not going to be of any great help in world advancement. If there is any forward movement coming some year later on the 700,000 Boy Scouts will be no small part of the uplift. Here is an organization that deserves all the support you can give it, in any way at any time. It is a chance for the average grown-up to help for all the things he hasn't done—or has done that he shouldn't have.

It is encouraging to see a great sports writer like Rice also take up the boosting of Boy Scouts. The good things of the Boy Scouts are permeating all avenues.

## PARCEL POST INCREASE

THE Minnesota Farm Bureau does not relish a 300 per cent increase in parcel post rates. The higher schedule is proposed in the Paige-Kelley-Edge bills, designed to raise revenue with which to meet a \$150,000,000 wage boost for postal employees.

J. F. Reed, president of the Minnesota Farm Bureau, made this very definite statement: "The Farm Bureau is not opposed to higher wages for postal employees, but we do object to throwing all of the burden on the farmers, already deflated until their economic condition is unbearable. Parcel post accounts for but a small per cent of the postoffice department's receipts. If increased rates are necessary, we believe that all users of the service should foot the bill. It is rank injustice to ask farmers, who pay almost all the parcel post charges, to stand this burden alone. Moreover, there is now at work a commission that is making a scientific study of the postal situation, especially the problem of fair rates. When this report is ready the postoffice department itself will be able to adjust rates."

## SAVING THE BEAUTY SPOTS

THE Lakeland Standard says that the removal and destruction of half a million unsightly advertising signs and bill boards along public highways has just been completed by employees of the State Highway Department as part of Minnesota's contribution to the nation-wide campaign to save beauty spots.

Uprooting the signs and bill boards, we believe, has uncovered the beauty spots which hitherto had been obscured. We don't like to brag about our own business, but the sign and bill board apportionment formerly made by merchants, can now be spent to as good, if not better advantage, by newspaper advertising. People take the time to read newspapers, but not every driver has the time or inclination to read all the bill boards.

## DAYLIGHT SAVING IN THE EAST

MANY people thought of the daylight savings plan as something associated with the war to save time and money. In this state it did not please the farmers whose farmwork is regulated by the sun regardless of any self-imposed rules.

But in the east, daylight saving has found many supporters and New York and Chicago have again adopted the plan, pushing their clocks forward an hour Saturday midnight. Railroads will continue to operate on standard time out of the cities. It is confusing to a stranger, however, to leave a Chicago railway station at 8 o'clock in the morning, and to find a clock in a cigar store across the street pointing to 9 o'clock.

# PUG-O-NA-GE-SHIG SEASON OPENS JUNE 9

Boy Scout Camp Near Merrifield Will  
Run For Term of Eight  
Weeks

OUTING FOR 200 BOYS

The First Eligibles to Register For  
Camp Will Secure the  
Privilege

"Pug-O-Na-Ge-Shig," the Boy Scout camp near Merrifield, which was carried on with such excellent success for the first time last season, will open again this summer, on June 9th, for eight weeks.

It is planned to give two hundred Boy Scouts an outing at this camp.

Camp "Pug-O-Na-Ge-Shig" Near Merrifield

about fifty scouts at a time, in two-week periods. It is felt that a big percentage of the four hundred boys eligible in the country, will wish to take advantage of this opportunity, but Scout Executive E. W. Stimble states that only half that number can be accommodated this year, and that the first two hundred to register will be the ones to go to camp. He advises the boys that it will be a good policy to make their registrations at once, rather than to wait until the last minute, when there is bound to be a number of disappointments.

A number of new features have been added to Camp Pug-O-Na-Ge-Shig since last season. Under the direction of the camp committee of the scout council a new mess hall is being built that will accommodate

Red Cross, will be secured. Three or four new boats will be added to the fleet, giving ample accommodations in this line.

The old "mess" tent is to be used for headquarters, and will house the camp office, store and bulletin boards. New mosquito-proof fronts will be placed in each tent and ventilators attached to the rear, giving the campers every comfort during the sleeping hours.

The signal tower will be completed and decorations made on it. Additional space will be cleared for a sport field, where every clean game and contest may be enjoyed.

On the opening night of the camp the old campers will gather around

crease and imposes a burden equivalent to a mortgage of \$1300 bearing 6 per cent on every quarter section of land in the county. But rapidly as taxes have increased on farm lands, the increase has not kept pace with the increase in cities and villages, the average tax on the same valuation in cities and villages being very much greater. The tax burden on every lot and parcel of land in villages and cities of Crow Wing county is equal to that of a mortgage bearing 6 per cent and amounting to three-fifths of the full value of the property. On a house worth \$5,000 this tax mortgage amounts to a little more than \$3,100—more than a prudent money lender would loan on the property. And for both farm and city property taxes have reached a point where it is very difficult for people of moderate means to meet them. It should be apparent to every thoughtful person that this constant increase must be checked or the country, in a short time, will be placed in a very grave situation. A halt must be called. The remedy is plain. Every unit of government from the school district to the state must apply the brakes and reduce expenditures, and I feel the utmost confidence that this can be done without the least impairment of the public welfare.

Many taxpayers seem to think that the assessor is responsible for high taxes, but nothing could be further from the truth. The assessor as an official has nothing to do with making taxes either high or low. It is the money that is voted for public purposes that determines whether taxes shall be high or low. When the state or county, or any community is spending large amounts of money, it matters not what for, taxes will inevitably be high; but the assessor as an officer has nothing to say about how much money shall be spent.

Matters of expenditures are determined by the voters at school meetings, town meetings, village and city councils, county boards, the state legislature, and by the people themselves, not by the assessor. But while the assessor has practically nothing to do with making taxes high or low, he has nearly everything to do with making them just and equitable. If he does his work carefully, with good judgment, and in strict accordance with the laws of the state, the result will be a square deal for every taxpayer in his district, and every taxpayer will be compelled to carry his fair share of the burden of taxation.

On the other hand if he violates his oath of office and does his work in a careless and inefficient manner, or attempts to assess property by any standard except the one fixed by the laws of the state, his assessments will inevitably abound in the grossest inequalities and result in grave injustice.

Having accepted this difficult, important and somewhat thankless job you are in duty bound to give to the taxpayers of your district the best that is in you. In your endeavor to make a good assessment you are entitled to the help of every good citizen, but whether you get it or not I urge you to perform every duty in a good natured and helpful spirit befitting a public servant, but at the same time to do it thoroughly and without extending unlawful favors to anyone.

The meeting was one of the best of its kind that has been held in the county, according to County Auditor C. W. Mahlum. Only two of the forty-four assessors of the county were absent, being Paul M. Henry of Manganese and Alvin F. Henke of Smiley township.

The complete list of assessors throughout the county is as follows: Brainerd—M. E. Hitch. Crosby—C. A. Lewis. Cuyuna—B. A. Zucca. Deerwood Village—Alexander Wyness. Ironton—E. A. Lamb, Jr. Jenkins Village—Roy Kelsey. Manganese—Paul M. Henry. Pequot—John Oberleiter. Trommald—Irving Fleener.

## Safe Fat Reduction

Reduce, reduce, reduce, is the slogan of all fat people. Get thin, be slim, is the cry of fashion and society. And the overfat wring their hands in mortification and helplessness; revolting at nauseating drugs, afraid of violent exercise, dreading the unwelcome and unsatisfying diet, until they hit upon the harmless Marmola Prescription and learn through it that they may safely reduce steadily and easily without one change in their mode of life, but harmlessly, secretly, and quickly reaching their ideal of figure, with a smoother skin, better appetite and health than they have ever known. And now comes Marmola Prescription Tablets from the same famous harmless formula as the Marmola Prescription. It behooves you to learn the satisfactory, beneficial effects of this great, safe, fat reducer by giving to your druggist one dollar for a box, or sending a like amount to the Marmola Company, 4612 Woodward Avenue, Detroit, Michigan, with a request that they mail to you a box of Marmola Prescription Tablets.—Advt.

## COUNTY ASSESSORS MET AT COURT HOUSE MONDAY

(Continued from page 1)

emphasized, usually falls upon the poorer taxpayers of the district, the ones least able to pay. He made it very plain that the only way that honest taxpayers can be protected by the assessor from unjust taxation, is by strict adherence to the assessment laws of the state.

He said that real estate bears more than 4-5 of all of our tax burdens and the proper valuing of each and every tract in his district is the most important job the assessor has on his hands this year. That no good purpose could be subserved by over-valuing it, and it is equally true that no good purpose could be subserved by undervaluing it.

In order that this heavy burden may be equitably distributed and real estate in all parts of the state be treated alike, measured so to speak, by the same tape line, assessors should observe the law everywhere and assess all farm and rural lands at 33 1-3 per cent of their true and full value and all platted city and village property at 40 per

cent. This is a simple application of the golden rule in assessing property and if strictly followed will result in a square deal for every owner of real estate. This is all that any good citizen desires and all that any one has a right to expect.

Owing to the greatly decreased purchasing power of the dollar and the widespread expansion of governmental activities, taxes have increased in recent years at a very alarming rate. In 1903 the average tax throughout the state on each \$1,000 of taxable value was \$25.32; in 1913 it was \$33.40, and in 1923 it rose to \$59.47—an increase of more than 78 per cent in the ten-year period since 1913, and of 135 per cent since 1903. If the wealth of the state had increased at the same rate there would be little cause for apprehension, but unfortunately this is not the case. The fact is that taxes have increased nearly twice as much as wealth.

The average tax against farm land in this county in 1901 amounted to 6 1/2 cents per acre, ten years later it was 19 1/2 cents per acre, and in 1923, twelve years later, it had mounted to 50 and 3-4 cents per acre. This is a very startling in-

# PUG-O-NA-GE-SHIG SEASON OPENS JUNE 9

Boy Scout Camp Near Merrifield Will  
Run For Term of Eight  
Weeks

OUTING FOR 200 BOYS

The First Eligibles to Register For  
Camp Will Secure the  
Privilege

"Pug-O-Na-Ge-Shig," the Boy Scout camp near Merrifield, which was carried on with such excellent success for the first time last season, will open again this summer, on June 9th, for eight weeks.

It is planned to give two hundred Boy Scouts an outing at this camp.

Red Cross, will be secured. Three or four new boats will be added to the fleet, giving ample accommodations in this line.

The old "mess" tent is to be used for headquarters, and will house the camp office, store and bulletin boards. New mosquito-proof fronts will be placed in each tent and ventilators attached to the rear, giving the campers every comfort during the sleeping hours.

The signal tower will be completed and decorations made on it. Additional space will be cleared for a sport field, where every clean game and contest may be enjoyed.

On the opening night of the camp the old campers will gather around

crease and imposes a burden equivalent to a mortgage of \$1300 bearing 6 per cent on every quarter section of land in the county. But rapidly as taxes have increased on farm lands, the increase has not kept pace with the increase in cities and villages, the average tax on the same valuation in cities and villages being very much greater. The tax burden on every lot and parcel of land in villages and cities of Crow Wing county is equal to that of a mortgage bearing 6 per cent and amounting to three-fifths of the full value of the property. On a house worth \$5,000 this tax mortgage amounts to a little more than \$3,100—more than a prudent money lender would loan on the property. And for both farm and city property taxes have reached a point where it is very difficult for people of moderate means to meet them. It should be apparent to every thoughtful person that this constant increase must be checked or the country, in a short time, will be placed in a very grave situation. A halt must be called. The remedy is plain. Every unit of government from the school district to the state must apply the brakes and reduce expenditures, and I feel the utmost confidence that this can be done without the least impairment of the public welfare.

Many taxpayers seem to think that the assessor is responsible for high taxes, but nothing could be further from the truth. The assessor as an official has nothing to do with making taxes either high or low. It is the money that is voted for public purposes that determines whether taxes shall be high or low. When the state or county, or any community is spending large amounts of money, it matters not what for, taxes will inevitably be high; but the assessor as an officer has nothing to say about how much money shall be spent.

Matters of expenditures are determined by the voters at school meetings, town meetings, village and city councils, county boards, the state legislature, and by the people themselves, not by the assessor. But while the assessor has practically nothing to do with making taxes high or low, he has nearly everything to do with making them just and equitable. If he does his work carefully, with good judgment, and in strict accordance with the laws of the state, the result will be a square deal for every taxpayer in his district, and every taxpayer will be compelled to carry his fair share of the burden of taxation.

On the other hand if he violates his oath of office and does his work in a careless and inefficient manner, or attempts to assess property by any standard except the one fixed by the laws of the state, his assessments will inevitably abound in the grossest inequalities and result in grave injustice.

Having accepted this difficult, important and somewhat thankless job you are in duty bound to give to the taxpayers of your district the best that is in you. In your endeavor to make a good assessment you are entitled to the help of every good citizen, but whether you get it or not I urge you to perform every duty in a good natured and helpful spirit befitting a public servant, but at the same time to do it thoroughly and without extending unlawful favors to anyone.

The meeting was one of the best of its kind that has been held in the county, according to County Auditor C. W. Mahlum. Only two of the forty-four assessors of the county were absent, being Paul M. Henry of Manganese and Alvin F. Henke of Smiley township.

The complete list of assessors throughout the county is as follows: Brainerd—M. E. Hitch. Crosby—C. A. Lewis. Cuyuna—B. A. Zucca. Deerwood Village—Alexander Wyness. Ironton—E. A. Lamb, Jr. Jenkins Village—Roy Kelsey. Manganese—Paul M. Henry. Pequot—John Oberleiter. Trommald—Irving Fleener.

## Safe Fat Reduction

Reduce, reduce, reduce, is the slogan of all fat people. Get thin, be slim, is the cry of fashion and society. And the overfat wring their hands in mortification and helplessness; revolting at nauseating drugs, afraid of violent exercise, dreading the unwholesome and unsatisfying diet, until they hit upon the harmless Marmola Prescription and learn through it that they may safely reduce steadily and easily without one change in their mode of life, but harmlessly, secretly, and quickly reaching their ideal of figure, with a smoother skin, better appetite and health than they have ever known. And now comes Marmola Prescription Tablets from the same famous harmless formula as the Marmola Prescription. It behooves you to learn the satisfactory, beneficial effects of this great, safe, fat reducer by giving to your druggist one dollar for a box, or sending a like amount to the Marmola Company, 4612 Woodward Avenue, Detroit, Michigan, with a request that they mail to you a box of Marmola Prescription Tablets.—Adv.

about fifty scouts at a time, in two-week periods. It is felt that a big percentage of the four hundred boys eligible in the country, will wish to take advantage of this opportunity, but Scout Executive E. W. Stimble states that only half that number can be accommodated this year, and that the first two hundred to register will be the ones to go to camp. He advises the boys that it will be a good policy to make their registrations at once, rather than to wait until the last minute, when there is bound to be a number of disappointments.

A number of new features have been added to Camp Pug-O-Na-Ge-Shig since last season. Under the direction of the camp committee of the scout council a new mess hall is being built that will accommodate

the council fire and receive their tribal rank of last season. Once each week a pilgrimage will be made to the council tree around which the famous chief after whom the camp is named gathered his tribe to plan conquests against the enemies that occupied this section of the Northwest in years long gone by.

Twice each week the council fire at the camp will be lighted and the various ranks conferred upon the boys who have made the required advancement.

Camp "Pug" offers the boys of the scout troops in the county the advantage of a fine vacation coupled with much valuable instruction that can be obtained in no other manner, plenty of clean fun, and two weeks of real healthful living.

April 30th TAG DAYS May 1st

1924

## The City and School Public Health Fund

TAG DAY has been recognized all over the United States as primarily for the benefit of PUBLIC HEALTH, whatever other causes it may occasionally be used for.

Public Health received a big impetus during the war when we found that one-third of our examined men suffered from physical ailment, most of which MIGHT HAVE BEEN PREVENTED in childhood. Then we discovered that it was safer to be a soldier in the war than an infant under one year of age in the United States. PARENTS NEED TO BE TRAINED that this great unnecessary loss be overcome.

Minneapolis is getting ready for a BIG HEALTH EXPOSITION in May. The City Health Commissioner says, in a proclamation, that Minneapolis, at the present rate, during the next ten years, will pay ONE HUNDRED MILLION DOLLARS because of UNNECESSARY SICKNESS and he calls this condition one of the greatest crimes of our civilization. On the basis of population, BRAINERD'S BILL would be nearly THREE MILLION DOLLARS. This cash calculation doubtless not merely represents cash paid out but financial loss entailed when a grade is repeated on account of ill health, it also represents inefficiency in work, loss of work, pain and death, time put in, in the care of the weak and ill, fatigue, sleepless nights, grief and loss.

St. Paul has just had its Third Annual CHILD HEALTH DAY. This day was to stimulate action through 364 more days and the people studied how to make health contagious. The Slogan was, "It's Great to Be Healthy."

A few words from the Principals of our Brainerd schools:

"There is no part of the school work upon which I would place more value than I do on the work of the school nurse."

"Is there any better service rendered our community than the care and preservation of the health of our citizens and future citizens through the work of our city and school nurse?"

"The nurse gives the parents confidence that their children are being protected from contagious diseases so far as possible. We have a class of eight mothers taking the University course in the 'Hygiene of Maternity and Infancy' under the nurse's instructions, and I have heard several of these mothers say they have received much valuable knowledge from these lessons."

"The Public Health Nurse in her great work of preventing disease and building up health not only watches over the children in school, but also gives of her services freely to the younger ones, and other members of the family at home."

"I consider the work of the city nurse in connection with our schools, invaluable, and teachers feel that to deprive the schools of this service would mean an irreparable loss. Only those specially trained, can detect the first symptoms of disease and pupils need this constant watch-care, if schools are to be safeguarded against frequent interruptions of work, by contagious disease. By all means, let us buy the nurse a needed new car and, in every possible way, help to make her work effective."

"Since the last legislature a course in citizenship is required in our schools. In the examination about one-third of the questions relate to health."

Classes in Infant Hygiene are taught by the nurse once a week to the 7th and 8th grades. These lessons include baby's growth and development, the care of the well baby as well as the sick baby.

Acting as City Nurse as well as school nurse, the efficiency of the work is greatly increased. The nurse enters the home as well as the school and co-operates with city as well as with school officials.

The primary need of our Health Fund at this time is to replace the old Health Car. The car is now maintained by the Board of Education. The average expense for the past year has been \$15.91 per month. This low amount is made possible because the car is given free storage at the Fire Hall. In getting a new car the efficiency of the service is maintained.

April 30th, ladies from the different wards will sell tags for as large amounts as the purchasers wish to give.

May 1st children of the schools will take tags to their homes and neighborhoods for 10 cents apiece. All parents and friends will surely wish tags. Some will buy two or more. Some will sacrifice in buying only one.

San Francisco, April 29.—Spite has no place in affairs of love and marriage, Superior Judge Cabaniss

Next day the girl, in ecstasy over a projected honeymoon trip, was coldly informed by the groom, she says, that he had wooed and married her only to spite another woman. Disillusioned and hurt, the girl immediately left their apartment and says she has never seen him since.

# April 30th TAG DAYS May 1st 1924

## The City and School Public Health Fund

TAG DAY has been recognized all over the United States as primarily for the benefit of PUBLIC HEALTH, whatever other causes it may occasionally be used for.

Public Health received a big impetus during the war when we found that one-third of our examined men suffered from physical ailment, most of which MIGHT HAVE BEEN PREVENTED in childhood. Then we discovered that it was safer to be a soldier in the war than an infant under one year of age in the United States. PARENTS NEED TO BE TRAINED that this great unnecessary loss be overcome.

Minneapolis is getting ready for a BIG HEALTH EXPOSITION in May. The City Health Commissioner says, in a proclamation, that Minneapolis, at the present rate, during the next ten years, will pay ONE HUNDRED MILLION DOLLARS because of UNNECESSARY SICKNESS and he calls this condition one of the greatest crimes of our civilization. On the basis of population, BRAINERD'S BILL would be nearly THREE MILLION DOLLARS. This cash calculation doubtless not merely represents cash paid out, but financial loss entailed when a grade is repeated on account of ill health, it also represents inefficiency in work, loss of work, pain and death, time put in, in the care of the weak and ill, fatigue, sleepless nights, grief and loss.

St. Paul has just had its Third Annual CHILD HEALTH DAY. This day was to stimulate action through 364 more days and the people studied how to make health contagious. The Slogan was, "It's Great to Be Healthy."

A few words from the Principals of our Brainerd schools:

"There is no part of the school work upon which I would place more value than I do on the work of the school nurse."

"Is there any better service rendered our community than the care and preservation of the health of our citizens and future citizens through the work of our city and school nurse?"

"The nurse gives the parents confidence that their children are being protected from contagious diseases so far as possible. We have a class of eight mothers taking the University course in the 'Hygiene of Maternity and Infancy' under the nurse's instructions, and I have heard several of these mothers say they have received much valuable knowledge from these lessons."

"The Public Health Nurse in her great work of preventing disease and building up health not only watches over the children in school, but also gives of her services freely to the younger ones, and other members of the family at home."

"I consider the work of the city nurse in connection with our schools, invaluable, and teachers feel that to deprive the schools of this service would mean an irreparable loss. Only those specially trained, can detect the first symptoms of disease and pupils need this constant watch-care, if schools are to be safeguarded against frequent interruptions of work, by contagious disease. By all means, let us buy the nurse a needed new car and, in every possible way, help to make her work effective."

"Since the last legislature a course in citizenship is required in our schools. In the examination about one-third of the questions relate to health."

Classes in Infant Hygiene are taught by the nurse once a week to the 7th and 8th grades. These lessons include baby's growth and development, the care of the well baby as well as the sick baby.

Acting as City Nurse as well as school nurse, the efficiency of the work is greatly increased. The nurse enters the home as well as the school and co-operates with city as well as with school officials.

The primary need of our Health Fund at this time is to replace the old Health Car. The car is now maintained by the Board of Education. The average expense for the past year has been \$15.91 per month. This low amount is made possible because the car is given free storage at the Fire Hall. In getting a new car the efficiency of the service is maintained.

April 30th, ladies from the different wards will sell tags for as large amounts as the purchasers wish to give.

May 1st children of the schools will take tags to their homes and neighborhoods for 10 cents apiece. All parents and friends will surely wish tags. Some will buy two or more. Some will sacrifice in buying only one.

### One-Day Bride Quits Man Who Wed for Spite

San Francisco, April 29.—Spite has no place in affairs of love and marriage, Superior Judge Cabaniss

held in granting Mrs. Lottie Schenier an annulment to her one-day union with Ernest Schenier, cafe man. Mrs. Schenier, who is only 19, told how she married the well-to-do restaurant proprietor on his plea of

love. The ceremony was performed on Jan. 21 last.

Next day the girl, in ecstasy over a projected honeymoon trip, was coldly informed by the groom, she says, that he had wooed and married her only to spite another woman.

Disillusioned and hurt, the girl immediately left their apartment and says she has never seen him since.

the confectionery business and has  
large interests in Oshkosh, Wis.,  
where his brother, Arthur J. De-  
Smidt is in charge of "DeSmidt's"  
there. In addition to the large con-  
fectionary business in Oshkosh, the  
firm also manufactures candies, em-  
ploying five candymakers the year  
around.

The Oshkosh place has been con-  
ducted seven years and has built up  
a constantly expanding business.  
"We are the only people," said Mr.  
DeSmidt, "who make double-coated  
chocolates, and our product finds a

## BABE RUTH BEGINNING TO GROW UP

By HENRY L. FARRELL  
United Press Sports Editor

New York, April 29.—"He's beginning to grow up now and he's in shape. You just watch him go this year," Miller Huggins, manager of the New York Yankees, said when asked about the Babe's prospects for the 1924 season.

"Ruth always will be a boy at heart," he said. "He wouldn't be what he is if he had lost the enthusiasm, the temperament or the viewpoint of a youth. He's getting more serious now about his future, and that is what I meant by saying that he is beginning to grow up."

Up until last year the Babe acted like a boy who didn't realize that the land of plenty, in which he was living, was not permanent. He had plenty of money and he spent it all on friends who were eager to help him in the spending.

In the parlance of Broadway, he was a "check-grabber." He couldn't understand why he should not be permitted to pay all the freight and be a good fellow when he was on parties with the gang. He found himself broke, saw himself in the light of a sucker and he quit it.

After he had fought Jack Dempsey in Shelby last summer and failed to get a cent for staying fifteen rounds with the world's champion, a friend remarked to Tom Gibbons that it was hard luck on him.

"It's not my bad luck," Gibbons replied, "it's bad luck for my wife and my three little boys. It would have been their money, not mine. I have enough to take care of myself, but it my duty to provide for them."

The Babe didn't say anything like that last fall, but he did something that meant just as much. When the season closed he called Harry Heilmann, star Detroit outfielder, who had beaten him out for the American League batting championship.

"Take out the old papers, Harry, I want to buy some insurance." When he is not working at baseball, Heilmann is an insurance salesman, and a good one, too. He drew out the application blank and Babe said: "Gimme one for \$50,000."

As might be expected, he passed the physical examination and was accepted by the company for the full amount of the application.

When the policy had been turned over to him, the Babe let out a big sigh and said: "Now, I feel a whole lot better. There's sure to be something for the wife and little Dorothy when I leave."

That, perhaps, was one of the demonstrations that Ruth gave his manager as the symptoms of growing up.

## FIRPO WANTS A QUARTER MILLION

New York, April 29.—Owing to excessive financial demands made by Luis Firpo, Tex Rickard announced that he had notified his representative to discontinue all discussion with the South American champion. Rickard said that Firpo demanded \$250,000 for meeting Harry Wills and had shown that he was afraid of Wills by turning down an offer of \$200,000.

## ERMINIO SPALLA TO FIGHT IN AMERICA

New York, April 29.—Erminio Spalla, European heavyweight champion, who has contracted to appear in a number of contests for Tex Rickard, is scheduled to arrive soon from South America.

## Star Performs Death-Defying Stunts in 'Let's Go!'

What has been termed the most thrilling picture of its kind ever produced, "LET'S GO!" starring Richard Talmadge, the man without fear, will be shown at the New Park on Wednesday and Thursday.

During the course of production of "LET'S GO!" the star, in performing the many death-defying stunts which appear throughout the picture was the victim of eleven minor accidents and one which laid him up for four weeks, causing the suspension of all work on the production. ed Western character, believes in following up his leads in "Singer Jim McKee," which has its last showing tonight at the Lyceum.

He rides and shoots and fights like he's never done before. He reveals in the title character, a role of his own creation, for he wrote the original story himself.

If you're looking for real entertainment, why go further? Here it is—entertainment plus—all the Hart pictures rolled into one.

**Tommy Gibbons Gets Plaudits**  
Perhaps no man in the annals of boxing has done more to bring credit to the pastime than Tommy Gibbons, the clean-living St. Paul chap, who astounded the world last summer by remaining 15 rounds against Jack Dempsey, the vicious man-killer from Utah.

The home life of the Gibbons family was one of the chief objects of interest in the shabby little town, and is one of the outstanding features in "Dempsey and Gibbons at Shelby," a motion picture record of those times, which will be shown at the New Park on Wednesday and Thursday.

Douglas Fairbanks Jr. and Theodore Roberts in a scene from the Paramount Picture "Stephen Steps Out"

A comedy packed with dramatic situations is Douglas Fairbanks, Jr.'s first stellar production for Paramount, "Stephen Steps Out," which will be the feature at the Lyceum Theatre Wednesday and Thursday.

Joseph Henabery directed the picture, which is an adaptation of "The Grand Cross of the Crescent," a story by Richard Harding Davis. There will be a special school children's matinee at 4 o'clock Wednesday.

## DOCTOR'S PRESCRIPTION GIVES QUICK RELIEF FROM SPRING FEVER OR NO COST

In the Spring your liver becomes sluggish and your bowels clogged. The result is intestinal poisoning! When warmer weather strikes, many suffer frequently with attacks of indigestion, heartburn, heart palpitation, gas and sour stomach, headaches, coated tongue, bad taste, biliousness and such symptoms.

Cleanse and tone your liver and bowels with Dr. Thacher's Liver and Blood Syrup. Helps Nature put stomach in condition, tone your tired

nerves, brace up your entire system and send purer and healthier blood coursing through veins. Notice the quick difference in the way you look, eat, sleep and feel. You, too, will be satisfied, as others have, or no cost.

Dr. Thacher's Liver and Blood Syrup is sold and recommended by Johnson's Pharmacy in Brainerd and by leading druggists in every city and town.—Advt.
